

The Eagles believe the path to sustainability is a journey, not a destination. With the opening of Lincoln Financial Field in 2003, the team's road to becoming an eco-friendly operation began.

What started with a blue recycling bin under each employee's desk has grown into a company-wide sustainability program that is reducing the organization's overall impact on the environment in a financially responsible manner.

With the help of partners and fans, the Eagles have been able to develop a multi-operational action plan that incorporates green energy production, recycling, composting, energy efficiency, ocean conservation, and reforestation, among other ventures.

The Eagles, who wear the color "green" with pride, are committed to serving as proud environmental stewards for a community that gives so much to them throughout the year.

"SUSTAINABLE" SUCCESS

In December 2018, Lincoln Financial Field was awarded LEED Gold certification by the U.S. Green Building Council for implementing practical and measurable strategies and solutions aimed at achieving high performance in sustainable site development, water savings, energy efficiency, materials selection, and indoor environmental quality.

The Eagles are the first pro sports team in the world to receive the prestigious ISO 20121 Event Sustainability Management System certification.

ISO 20121 is an international standard designed to help organizations in the event and hospitality industry to integrate sustainability into its management operations.

The Eagles are the first U.S. pro sports team to offset team travel emissions through Ocean Conservancy's Blue Playbook. The Eagles work closely with Ocean Conservancy and The Ocean Foundation on seagrass and mangrove coastal restoration efforts in Puerto Rico's Jobos Bay National Estuarine Research Reserve.

In September 2020, Lincoln Financial Field achieved Global Biorisk Advisory Council (GBAC) STAR accreditation. Under the guidance of GBAC, a Division of ISSA, the worldwide cleaning industry association, Lincoln Financial Field has implemented stringent protocols in cleaning, disinfection, and infectious disease prevention.

SUSTAINABILITY & ENVIRONMENTAL BIRDSEED

- 10,456 solar panels have positioned Lincoln Financial Field to be among the greenest major sports facilities in the world
- Through the team's energy-from-waste program, the Eagles divert more than 99% of their waste from landfills
- The installation of water filtration fountains at the team's facilities has saved more than one million water bottles since 2015
- Became the first Philadelphia sports team to switch from plastic straws to an eco-friendly alternative made from 100% renewable resources
- Implemented a closed-loop recycling program that collects bottle caps and turns them into new material for use at the stadium
- Supports reforestation efforts by planting trees in various cities, including the "Eagles Forest" in Bensalem, PA
- Bike Share program provides team employees with bicycles for convenient transportation from the practice facility to the stadium
- Staff is equipped with sustainable rain ponchos made from sugarcane ethanol, a renewable raw material that has a carbon-negative life cycle
- Cups and flatware are created from bio-plastics which biodegrade in just 45 days
- The Eagles turned the dial from hot to cold and now wash all laundry, including uniforms, in cold water

PARTNERS IN SUSTAINABILITY
