

The Eagles believe the path to sustainability is a journey, not a destination. With the opening of Lincoln Financial Field in 2003, the team's road to becoming an eco-friendly operation began. What started with a blue recycling bin under each employee's desk has grown into a company-wide sustainability program that is reducing the organization's overall impact on the environment in a financially-responsible manner.

With the help of partners and fans, the Eagles have been able to develop a multi-curriculum action plan that incorporates green energy production, recycling, composting, energy efficiency, ocean conservation, and reforestation, among other ventures. The Eagles, who wear the color "green" with pride, are committed to serving as proud environmental stewards for a community that gives so much to them throughout the year.

"SUSTAINABLE" SUCCESS

In December 2018, Lincoln Financial Field was awarded LEED Gold certification by the U.S. Green Building Council (USGBC) for implementing practical and measurable strategies and solutions aimed at achieving high performance in sustainable site development, water savings, energy efficiency, materials selection, and indoor environmental quality.

The Eagles are the first professional sports team in the world to receive the prestigious ISO 20121 Event Sustainability Management System certification.

ISO 20121 is an international standard designed to help organizations involved in the events and hospitality industries integrate sustainability into management practices and processes.

The Eagles became the first U.S. pro sports team to offset team travel emissions through the support of Ocean Conservancy's Blue Playbook. As part of Team Ocean, the Eagles work closely with Ocean Conservancy and The Ocean Foundation on seagrass and mangrove coastal restoration efforts in Puerto Rico's Jobos Bay National Estuarine Research Reserve.

In September 2020, Lincoln Financial Field achieved Global Biorisk Advisory Council (GBAC) STAR accreditation, the highest standard for prepared facilities. Under the guidance of GBAC, a Division of ISSA, the worldwide cleaning industry association, Lincoln Financial Field has implemented stringent protocols in cleaning, disinfection, and infectious disease prevention.

GO GREEN PARTNERS

SUSTAINABILITY & ENVIRONMENTAL BIRDSEED

- 10,456 solar panels have positioned Lincoln Financial Field to be among the greenest major sports facilities in the world
- Through the team's energy-from-waste program, the Eagles divert more than 99% of their waste from landfills
- The installation of water filtration fountains at the team's facilities has saved more than 500,000 water bottles since 2015
- Became the first team in Philadelphia to switch from plastic straws to an eco-friendly alternative made from 100% renewable resources
- Has implemented a closed-loop recycling program that collects bottle caps and turns them into new stadium material
- Supports reforestation efforts by planting trees in various cities, including the "Eagles Forest" in Bensalem, PA
- Bike Share program equips team employees with bicycles for convenient transportation from the practice facility to the stadium
- Cups and flatware are created from bio-plastics which biodegrade in just 45 days
- To conserve energy, lower-wattage light bulbs and automatic sensors/timers have been installed in team facilities
- Two onsite bio-digesters help decompose pre-consumer food waste to eliminate the need for landfill disposal
