

EAGLES AUTISM FOUNDATION

Established on September 8, 2019, the Eagles Autism Foundation was formed to centralize all of the team’s autism activities into one organization, while strengthening its core mission of turning autism awareness into action. Led by Chairman and CEO Jeffrey Lurie, the team’s commitment to raising funds for autism research and care has grown exponentially, raising more than \$10 million since launching the Eagles Autism Challenge in May 2018.

The Centers for Disease Control and Prevention estimates that one in 54 people living in the United States are on the autism spectrum. Autism is a complex neurological and developmental condition that expresses itself differently in each individual. While it has become one of the fastest-growing developmental disorders in the country, autism has historically been underfunded, misunderstood, and under-researched.

By delivering the necessary resources to leading institutions, and through year-round fundraising efforts that inspire and engage the community to take action, the Eagles Autism Foundation is able to assist those currently affected by autism, as well as future generations.
