

The Eagles' sustainability journey began in 2003 with the opening of Lincoln Financial Field. Since then, the team's Go Green program has transformed into a company-wide, internationally recognized effort that works year-round to reduce the organization's environmental footprint in a financially responsible manner.

With the help of partners and fans, the Eagles have been able to develop a multi-operational action plan that incorporates green energy production, recycling, composting, energy efficiency, ocean conservation, and reforestation, among other ventures.

The Eagles, who wear the color "green" with pride, are committed to serving as proud environmental stewards for a community that gives so much to them throughout the year.

PARTNERS IN SUSTAINABILITY

"SUSTAINABLE" SUCCESS

In December 2018, Lincoln Financial Field was awarded LEED Gold certification by the U.S. Green Building Council for implementing practical and measurable strategies aimed at achieving high performance in sustainable site development, water savings, energy efficiency, materials selection, and indoor environmental quality.

The Eagles are the first pro sports team in the world to receive the prestigious ISO 20121 Event Sustainability Management System certification.

ISO 20121 is an international standard designed to help organizations in the event and hospitality industry integrate sustainability into its management operations.

The Eagles are the first U.S. pro sports team to offset team travel emissions through Ocean Conservancy's Blue Playbook. The Eagles work closely with Ocean Conservancy and The Ocean Foundation on seagrass and mangrove coastal restoration efforts in Puerto Rico's Jobos Bay National Estuarine Research Reserve.

In September 2020, Lincoln Financial Field achieved Global Biorisk Advisory Council (GBAC) STAR accreditation. Under the guidance of GBAC, a Division of ISSA, the worldwide cleaning industry association, Lincoln Financial Field has implemented stringent protocols in cleaning, disinfection, and infectious disease prevention.

SUSTAINABILITY & ENVIRONMENTAL BIRDSEED

- 10,456 solar panels have positioned Lincoln Financial Field to be among the greenest major sports facilities in the world
- Through the team's energy-from-waste program, the Eagles divert more than 99% of their waste from landfills
- The installation of water filtration fountains at the team's facilities has eliminated the use of more than one million plastic water bottles
- Lincoln Financial Field is the first NFL stadium to recycle beverage containers through the utilization of reverse vending machines
- Became the first Philadelphia sports team to switch from plastic straws to an eco-friendly alternative made from 100% renewable resources
- Implemented a closed-loop recycling program with Braskem that collects bottle caps and turns them into new material for use at the stadium
- In partnership with West Pharmaceutical Services, 20 trees are planted for every successful field goal made by the Eagles
- The Bellwether District invests in community cleanup projects around Philadelphia for every touchdown scored by the Eagles
- Bike Share program provides team employees with bicycles for convenient transportation from the practice facility to the stadium
- Staff is equipped with sustainable rain ponchos made from sugarcane ethanol, a renewable raw material that has a carbon-negative life cycle
